An energetic and imaginative young web developer who is able to work alongside other talented IT professionals in creating websites to the very highest standards. I have a high awareness of industry issues and trends, particularly in regard to accessibility, usability, emerging technologies, and open source projects. I am an ambitious type who wants to get noticed, and has the drive and massive energy needed to really make a difference to a project. Right now I am looking for an entry level position with an exciting company that wants to attract talented people.

PRACTICAL KNOWLEDGE

Working Knowledge - Entry-Level Front End Developer Role

- Ability to create successful websites that met requirements for objectives such as load speed and design.
- Improving and redesigning new layouts to achieve usability and performance objectives. Establishing the purpose of the website based upon its target audience.
- Monitoring website performance to quickly rectify front-end-related issues.
- Can Design wireframes and prototypes based on goals and needs for the organization. Brought mock-ups to life with HTML, CSS, JavaScript.
- Creating websites that are user-friendly, effective and appealing. Creating quality web pages.
- Able to test a website & identify bugs & technical problems. Developing cross-browser and cross-platform compatible solutions.
- Ability to use third-party web API and able to extract and fetch data from the required API.
- Able to use multiple and several front-end tools by using Npm JavaScript Packages such as - babel, webpack, eslint, prettier e.t.c....
